Policies and Codes

Academic and Community Expectations

- Academic Code of Business Graduate Programs
 - Policies and regulations governing attainment of academic credit and degrees
- Graduate Academic Code of Honor
 - Student and faculty expectations & responsibilities for honorable conduct in all academic activities
- du Lac: A Guide to Student Life
 - Central resources for ALL students (undergraduate, graduate, professional)

Each of these documents can be found on the [Student Portal](#).

Academic Code of Honor

Faculty Responsibilities

- Clarity regarding our expectations (each course may be different!)
 - Faculty should provide specific guidance about what types of collaborations are allowed
 - Faculty should provide details about required conditions for exam taking or other deliverables
 - If anything is unclear to you, it is critical that you ask FIRST
- Obligation to investigate/pursue suspected violations

Student Responsibilities

- Abiding by all conditions of the code
- Be sure to learn from each of your instructors how the Honor Code applies specifically to that course; clarify any questions you have about individual and group work
- When in doubt--ASK

Honor Code Violations

- Giving or receiving unauthorized aid on an exam or quiz
- Plagerism or falsifying data of any kind
- Including a name on a group assignment if the individual has not contributed to the work of the group
- Giving a false reason for requesting a make-up examination, an extension on an assignment, or an excused absence
- Turning in the same work for two or more courses without the explicit approval of all of the instructors involved
- Failing to take responsible action upon witnessing or becoming aware of an Honor Code violation

If you witness an Honor Code violation (or suspect a violation has occurred...

- Consider talking with the suspected student(s)
- If the student admits responsibility, urge the student to report him/herself to the instructor
- If you are not comfortable confronting the student, you may choose to discuss the observed action(s) with the instructor, not naming those involved, and determine if the act merits action
- Report the specific act of alleged academic dishonesty to the instructor
