# Leadership

## Do this together!

We are here for the degree, AND we are here for the experience inside and outside of the classroom, the experience is part of the degree. And club leadership is not just about coordinating activities outside of the classroom, but also the leader you are in the classroom as well.

- Leadership
  - View setbacks or mistakes as a chance to grow and develop
  - Open to accurate feedback on their ability - see it as a baseline to grow from
  - Focus on **learning** from others who have the ability (mentor/collaborate)
  - Design
    - Leaders design ideal conditions for environments and experiences
    - Create value for others and yourselves - grow the good in yourselves, grow together for each other
  - Compete, Cooperate and Collaborate
    - Excellence here together
    - Getting to know one another's strengths and weaknesses
